Dear Mr. Edsall:

The New York State Department of Transportation consents to the Town of New Windsor Planning Board serving as Lead Agency for the subject project review.

We concur with the findings of the Short Environmental Assessment Form, this project will have no significant impact on the State transportation system. However, a detailed engineering review will be required as part of our Highway Work Permit process.

The applicant should be directed to contact our local Highway Work Permit Engineer to initiate a Highway Work Permit review process.
